## PROJECTS

### • Erevuka eLearning Platform

An eLearning platform where you can purchase courses  
(<https://erevuka.org>)

### • Queen Dee Weddings (<https://queendeeweddings.co.ke>)

### • Kenya Bankers Association's Cost of Credit Calculator (<https://costofcredit.co.ke>)

### • Jobs Listings Application

Laravel application where you can get job listings and post jobs  
(<https://github.com/iamtheuri/example-app>)

### • Chess AI

Chess was my favorite board game growing up. Once I learned **Python**, I could not help but create my own game of chess.  
(<https://github.com/iamtheuri/chess>)

### • To-Do List

Laravel application where you can schedule your day and program yourself by listing down your planned activities and effectively managing them.  
(<https://github.com/iamtheuri/todolist>)

### • Car Sale Website

A car sale website using **HTML 5**, **CSS**, and **JavaScript**  
([iamtheuri.github.io/carsale](https://iamtheuri.github.io/carsale))
